

## **Download FREE Trial Versions of BroadVision Portal and Process**

Customers or prospects can register and download evaluation copies of BroadVision Portal Agility Suite (includes Portal, integrated Process, and integrated Content Services) and a standalone version of BroadVision Process. The 90-day FREE trial is for both prospects and existing customers currently running version 7.1 or earlier who are interested in the features and functionality of version 8.0.

Downloading the software is fast and easy, and it comes as a pre-configured package, ready to install and begin using. The software is configured for easy evaluation and comes with a tutorial to help you get started immediately.

If you decide to buy after the 90-day trial, BroadVision ships you the software appropriate for implementation of a production system, including performance and scalability optimizations not present in the evaluation copy.

To register and download the Portal Agility Suite, go here:
